-  Barcelona, Spain

I am **passionate** about video games and pursuing my professional life goal of working making video games.

Learning video game development in a **self-taught** way since my first **Global Game Jam** back in 2019. I develop my projects using **Unity3d** and **C#**. Also learning **video game design** to have a wider insight of the full development cycle. I am **eager** to learn new things and improve my skills day by day. I am a **team player** and firmly believe that **communication is key** to achieve the team goals.

Let's make Video Games!

WORK EXPERIENCE

Indie Video Game Developer

MoaMoai | January 2019 - Present

Development of a roguelike RPG Indie Video Game using Unity3D and C#. Jack of all trades:

- ★ Tools programming. **Improve the abilities system**> to create and test new abilities about **40% faster**.
- Gameplay Programming. Tuning **game feel** and **flow**.
- Explorative and regression testing of new implemented features and game builds.

Backend Web Developer

Òmada Interactiva | July 2015 - January 2019

Specialized in development of custom CRM applications in Drupal 7 and 8, Wordpress and Moodle sites as well.

- ★ Upgrade of the update workflow using bash scripts to automate it, **reducing the time required** to update almost **30%**.
- **Iterate** over developments to **improve workflow** and projects quality.
- **Onboard and training** of new dev co-workers. Teaching the tech workflow followed by the company.
- Stakeholder management and customer support. Establishing **communication pipelines** to contact all the departments involved in each project.
- QA of all the clients projects. **Checking the correct functioning** of the applications after applying proactive and reactive security updates.

Junior Programmer

Conpas | February 2015 - July 2015

Developed CRM systems in ZohoCRM and custom PHP systems.

- ★ Upgrading clients projects workflow, **reducing the time needed** to complete tasks by **25%**.
- **Research new tools** of ZohoCRM. Provide reports to my co-workers to implement new tools in the clients projects.
- QA work for the projects. Making sure the user experience was the best possible.
- Customer support.
